WORK EXPERIENCE

Web Development Intern | Tech A Intern

- During my internship as a TechA Intern, I was part of a dynamic and collaborative and dedicated to driving innovation and achieving common objectives. At TechA Intern, our focus extended across various domains, including technology, leadership development, and fostering a collaborative learning environment.
- This experience not only allowed me to enhance my technical skills but also provided in sights in to the unique challenges and opportunities within the technology sector. The internship at TechA Intern was a valuable opportunity to contribute to impactful projects.

PROJECTS

Spotify Music Web Player ↗ |HTML CSS JavaScript

- It is the clone of most popular Web Music Player Spotify.
- This project is made using HTML, CSS JavaScript.

Recipe Book App ↗ | HTML CSS JavaScript

- The app allows the users to find recipes based on different criteria such as, course, cuisine, and type of food.
- It is made by using HTML, CSS JavaScript.

Mental Health Assistant Chatbot System ↗ | Python NodeJS MongoDB

- The rise of mental health issues globally has necessitated innovative solutions to enhance access to support resources. Leveraging natural language processing (NLP) techniques and sentiment analysis, the chatbot engages users in empathetic conversations, offering personalized support, psychoeducation, and therapeutic interventions.
- By addressing these challenges, mental health assistant chatbots have the potential to significantly augment mental health care delivery and empower individuals to manage their well-being effectively.

Reactfolio ↗ | NodeJS ReactJS

- Reactfolio is a sleek and responsive personal portfolio built using HTML5, CSS3, Javascript and the library ReactJs which is perfect for showcasing your projects and skills in a professional manner. A portfolio is a systematic collection of student work that represents student activities, accomplishments, and achievements over a specific period of time in one or more areas of the curriculum.
